Hitachi

The perfect balance of technology and design. The ED-A220NM Ultimate Short Throw projector offers the highest quality images with a compelling design and low cost of ownership.

This network model ensures easy management and comes complete with its own wall mount

£709.00

Sony

£889.00

The VPL-SX535, 3000 lumens, XGA projector offers a 0.34 - 0.36:1 throw ratio that produces a 2.03M (80") diagonal screen size image from only 0.46 metres (1.5 feet) away from the screen.

This projector is easy to operate and delivers a low total cost of ownership. It is an ideal choice for ultra close projection applications in the corporate and educational markets

The VPL-EX100, 2300 lumens, XGA projector delivers exceptional image quality at a low cost of ownership with up to 6000 hours of lamp life.

The 1.3 – 1.82 throw ratio and 1.3 times optical zoom allows this projector to be installed in a wide range of environments.

£299.00

Installations

Why not have your projector professionally installed in your classroom, meeting room or boardroom.

Our team of engineers are available to carefully install your purchase.

For an all inclusive price we will ceiling mount your chosen projector and wire back to a wall mounted input plate ready for use with a desk or laptop computer. The input plate will also be wired ready for a video source such as a DVD player, camera or TV

All for just £249.00**
